Very early wake up this morning to transfer to the airport with check-in assistance for a **flight from Guatemala City to Petén/Mundo Maya airport** (FRS) at 06:25AM-07:25AM with TAG Airlines. Your guide will transfer you for about 1.5 hours to The **Yaxha ruins**, the third largest Mayan site in Guatemala behind El Mirador and Tikal. The ruins are situated near Lake Yaxha. Some of the highlights include multiple pyramid temples and a Mayan observatory. The views of the lake from atop the temples also make this a highly attractive destination. The ruins at Yaxha have a lot to offer in terms of both historic interest and scenic beauty. Rising from the greenery of the Petén jungle, the city's ceremonial pyramids provide sweeping views of nearby **Lake Yaxha**. At the height of the Mayan Classical period (250-900 AD), this city was a center of both commerce and religion, and its more than 500 remaining structures include palaces, ball courts, temples and a celestial observatory. Fans of the reality show Survivor may recognize this site, as it was the featured setting for the show's 2005 season. The ruins fall within the borders of the Yaxha-Nakum-Naranjo National Park, which encompasses an area of 143.5 sq. miles and incorporates the remains of four ancient Mayan cities: Yaxha, Topoxte, Nakum and Naranjo, as well as 10 intermediate sites and more than 280 smaller settlements. Lunch is in the nearby restaurant at the Eco lodge El Sombrero. After lunch, we visit Lake Yaxha. DAY 6 (SUN): TIKAL

After breakfast, transfer with your guide 1 hour to enigmatic ruins of **Tikal** to explore the "City of Voices." Discover the heart of the Mayan World hidden by dense jungle until the 19th century. Tikal represents one of the most breathtaking Pre-Columbian archaeological sites. Once one of the largest and most powerful city/states of the Mayan Classic period, Tikal was abruptly and mysteriously abandoned over 1000 years ago and disappeared for centuries into the lush jungle.

The power and immensity of Tikal is experienced climbing up **Temple IV** and looking out to see distant temples protruding through the jungle canopy. Some overgrown structures have yet to be released from the jungle's vines. On top of the Lost World search out jungle inhabitants such as howler and spider monkeys playing in the trees around the temples. You can listen to the over 410 species of birds, such as toucans, that bring music to the jungle canopy. Over 3000 structures have been unearthed from Tikal so far, including temples, palaces, living quarters, ball courts, and a sauna. Enjoy lunch and a break at the restaurant of the nearby Jungle Lodge.

There are also many reliefs and stelae that have survived the centuries, all of which reveal the history of this magical city through Mayan hieroglyphs – stories about Tikal's kings, its incredible wealth, and its wars with neighboring cities. Archaeologists estimate that the 6.2 square miles that has been excavated at Tikal is only a fraction of the entire site, leaving many visitors wishing they had more time to explore this ancient and mysterious city. There is also a small museum on site with a collection of ceramics, jade, shell and bone jewelry and sculptures.

After exploring the plazas and temples, it becomes clear how Tikal became an important Mayan ceremonial center with the construction of major pyramids at its height (600-900 AD during Late Classic period). **Tikal National Park**, a UNESCO World Heritage Site, contains some of the most captivating archaeological remains. This afternoon we return to the **Las Lagunas Hotel** for a restful night. (B,L)

Horseback ride or safari to look for coati, kinkajou, peccary, deer, agouti, spider monkey, howler monkey, armadillos, lowland paca, jaguarundi and birds. The park supports and promotes different conservation and development projects for the community. Lunch is at Raices Bar & Grill or Capitan Tortuga followed by a visit to the Jungle facility of ARCAS (**Wildlife Rescue and Conservation Association**). Here, we learn how this non-profit helps rescue endangered species, including monkeys and colorful macaws. Once rehabilitated, many animals can be returned to the wild. We continue to the airport to check-in for the evening TAG Airlines **flight Petén/Mundo Maya - Guatemala City**. Upon arrival, we transfer to the familiar **Westin Camino Real Hotel** for the night. Enjoy dinner on your own this evening as a farewell to Guatemala. (B,L)

WEATHER: Guatemala's weather is eternally comfortable—neither too hot nor too cold. Its seasons tend to be divided into a dry season and wet season, although the temperature (averages 72°F), varies more according to altitude than by the season. November through to April is the dry season and in the mountainous central region (Guatemala City, Antigua, Lake Atitlán, Chichicastenango, and the highlands) it is an ideal climate for outdoor pursuits with average temperatures of 64°F. It also coincides with the festivals of Easter week, Day of the Dead, the Burning of the Devil and the Saint Thomas festival in Chichicastenango. The rainy season runs from May to October which can hinder travel in more remote areas where roads are not well maintained, with Petén receiving the most amount of rainfall. The Petén region is hot throughout the year with an average temperature of 74°F, with rain possible year round. The busiest time of the year for tourism is between December and May when the dry season is in effect.
